DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowable.

The following is an examiner's statement of reasons for allowance: Upon conclusion of a comprehensive search of the pertinent prior, the Office indicates that the claims are allowable. Patentability exists, at least in part in independent claim 1, with the recited limitations of a screen plate, disposed on the frame plate screening the FPC and the chip; and at least one insulating elastic ring disposed around the FPC, wherein an inner periphery of the ring closely contacts with the chip and an outer periphery of the ring closely contacts with the frame plate and the screen plate. Applicant's admitted prior art, in addition to US Patents 6774872, 5777610, 5606440, 5822191, 6813159, 6560124, 6677664, 6703702, 6104464, 6342932, and 6534722 are all cited as teaching various elements of the claimed invention to include the backplate, the first and second circuits disposed on the two sides of the backplate, the frame plate, and at least one FPC connected the first and second circuits. The references, taken alone, or in combination do not teach or suggest all the limitations of the claimed invention in the manner as claimed by the Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
